1st-Crowe 2nd-Striker Roll call: Striker-yes, Rush-yes, Crowe-yes

V108-12 CDBG Fair Housing Agreement Donald B. Eager & Assoc. \$5000

1st-Crowe 2nd-Striker Roll call: Rush-yes, Striker-yes, Crowe-yes

Commissioner Crowe met with the Engineer and noted the Dog & Kennel parking lot will be checked for drainage and sealed next year. Engineers will also check the West Annex lot.

Chris Griffith, **iTech Solutions**. Discussion on **Teltron** not being here this week as expected nor getting accomplished what was expected last week. Chris, who is working on new phones, has 28 ports up out of 98. Clerk of Courts and Housekeeping do not work. He is working off the drawing trying to get something to line up with the labels. Nothing is correct. 2 hours and 15 minutes where things don't work compared to 20 to 30 minutes in offices that work. If the ports were tested with the fluke meter it would have not passed. Chris has asked at least twice for the spreadsheet to show they passed. We, the end user, do not have the certification. Is the warranty good? Manufacturer or installer? Basic stuff on wiring of this size. Drawings are not accurate; labels on boxes are not accurate. Chris is trying to correct and relabel as he finds. They have to line up. Teltron needs to be here to certify all ports. Very time consuming for Chris with all the issues and no Teltron. All the cameras were expected to be up on Friday April 8. An email was sent Friday to note it was expected Teltron would return on Monday, no response as of today. Katey Henson, Prosecutor's Office, was asked up for a phone call with Teltron. Teltron was called with John Clifton answering on a bad connection. John returned the call The work to be done last Friday is not completed with no response to inquiries of return. Seeing failures based on what is on the drawings and ports. 12 cameras are off line. Access points aren't coming up: bad port, mislabeled, won't come up. 28 of 92 phones out with bad ports, mislabels, inaccurate map. Discrepancies. Too many issues and is slowing down progress with June 1 deadline for migration. No active link. John-this project is priority and I will clear my schedule next week to put my eyes on the issues and get resolution. Experiencing too many difficulties. Allow me to rectify. Small things to get across if incorrectly labeled. I'll bring my paperwork to the design. Not the entire week but enough for us to understand what is going on and I'll provide supervision. They identified a couple of issues and I don't know if rectified. We can easily get rectified. I want a resolution.

Commissioner Crowe-we want to see, see you on site and stay until everything is rectified and Chris has good cabling to work with. Chris-Commissioners are not paying me to find your work. 15 to 20% failure rate. 33 of 35 access points and 17 of 30 cameras. No work stations added yet. Commissioner Crowe-He needs your techs here to fix what doesn't come up. We ask you come at 1:00 on Tuesday April 19 to discuss in depth. We need help here. John asked for time to work with Chris prior to the meeting. Chris is available Monday and Tuesday in the courthouse. Commissioner Rush-did your support staff report to you on Friday on results of the three days last week? John-just an overview. Didn't know of other issues or if it was scheduled out. They were told to work under Chris to get high level cameras up.

Commissioner Rush-we utilized April 6, 7, 8 to get this done and wasn't. An email to Teltron on Friday April 8 was not responded to. John will speak with Tiffany. He will prioritize the project. He will call Chris on technical issues for areas of concern so when he walks in he will have an idea. Phone called ended. Commissioner Crowe is this a breach of contract? Chris has spent hours identifying issues and correcting their issues that Teltron was paid for. Can this be billed back to Teltron?

Roll call resulted as follows:

_____, YES/NO
President of the Board-Fred M. Rush

_____, YES/NO
Timothy L. Striker

_____, YES/NO
Roger E. Crowe

Attest _____
Clerk of the Board
